

Welcome to OptumRx.

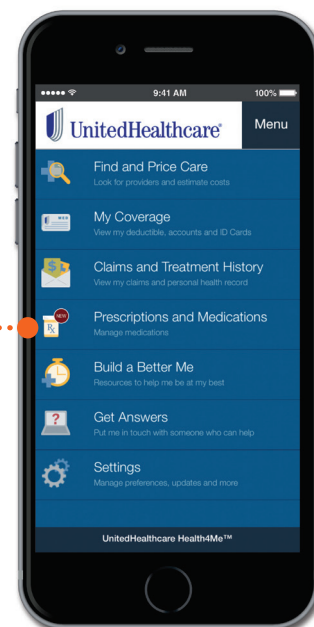

Who is OptumRx?

OptumRx® is your UnitedHealthcare plan's pharmacy care services manager. OptumRx is committed to providing you with safe, easy and cost-effective ways to get the medication you need.

How do I manage my pharmacy benefit online?

- 1 Set up your online account by visiting **myuhc.com**® and selecting "Manage My Prescriptions."
- 2 To manage your medications on the go, download the UnitedHealthcare® **Health4Me**® app from your app store. After you open the app, select "Prescriptions and Medications."

Track your prescription history, compare medication prices, set up automatic refill reminders and more.

Where do I fill my prescriptions?

OptumRx home delivery.

Order up to a three-month supply of the medication you take regularly for less.

- Use the **Health4Me** app
- Log in to **myuhc.com** and select "Manage My Prescriptions"
- Call the number on the back of your health plan ID card
- There is no charge for standard shipping to U.S. addresses

Network retail pharmacies.

- Show your health plan ID card at any UnitedHealthcare in-network retail pharmacy
- To see a list of network pharmacies, use the **Health4Me** app and select "Prescriptions and Medications." Or visit **myuhc.com** and select "Locate a Pharmacy"
- You can also call the customer service number on the back of your ID card

Pharmacy benefit tips.

Know your plan.

Your plan may require one or more of the following before you can fill your prescription:

Prior authorization — approval to get a medication.

Step therapy — trying one medication before another.

Quantity limits — getting a certain amount of each prescription.

Check your prescription drug list (PDL).

Your PDL is a list of covered medications. The list is broken into sections called tiers. Choosing medications in lower tiers may save you money. Check your PDL often.

Talk to your doctor.

When you talk with your doctor, use the **Health4Me** app to confirm coverage and costs. You can also talk about what you need to do to get your medication.

Save money.

Generic medications usually have a lower co-pay than brand name medications. Ask your doctor if there is a generic for you.

Compare prices.

Search for lower-cost alternatives. Just log in to **myuhc.com**, click on “Manage My Prescriptions” and select “Drug Pricing.” Or use the **Health4Me** app.

Questions? We can help.

Log in to **myuhc.com** and select “Manage My Prescriptions.”

Open the **Health4Me** app and select “Prescriptions and Medications.”

Or call customer service at the number on the back of your member ID card.
